ABOUT US

Our goal at Aux 3 Pommes-CA is to provide the best possible program to facilitate fluency and a level of comfort in a second language for both children and adults.

Our children's programs have been developed over the past decade at our sister school in Connecticut (www.aux3pommes.com). They are designed to encourage a love of foreign languages through games, songs, drama, movies and hands-on projects. The various activities also introduce students to the culture behind the language. We provide young students with the beginning language blocks that allow them to start communicate and build upon them as they learn.

Adult classes follow the same philosophy and method and are also based upon total language immersion and language building blocks.

Both adult and children classes are limited to 5 students.

We are proud to employ highly qualified and mostly native-speaking teachers. We offer classes in French, Spanish, Italian, Japanese, German, Russian, Portuguese, Mandarin and Arabic.
